Discover a [Forex Robot](#) that made 2,300% NET PROFIT in 2009 and download the Forex Auto Detector Software FREE that can increase the profitability of any forex robot by 53% and more. Try the [Forex Bulletproof](#) RISK FREE for 60 days!

Bill Poulos: I just spoke with Steve over at Forex BulletProof last night and now I can FINALLY reveal the good news he has for you...As of this very moment, the 10,000 available copies of Forex BulletProof are now available. But you have to hurry – over 15,000 people are on Steve's waiting list, which means a good portion of those folks will snap up their copy before anyone else. Get yours here...

Here are the stats, according to Steve:

- * Forex BulletProof has averaged a 5% monthly gain for the last 6 years...
- * Over 4,000 lines of code make up this robot, while the average Expert Advisor has just 409 lines...
- * BulletProof is the FIRST commercially available Forex robot to be coded for Strategy Trader, the latest trading platform from the FXCM brokerage...
- * It also comes with live support and video tutorials, and a super low price...

If any of this is interesting to you, test it for yourself here...Oh, and don't forget to check the bottom of the page to see if you are one of the 10 lucky winners of a FREE copy of Forex BulletProof!

Jason Fielder: This is the day that we've been waiting for. Forex BulletProof is Live! As of this very moment, the 10,000 available copies of Forex BulletProof are now on sale. But you have to hurry- over 15,000 people are on the waiting list. And in case you've forgotten what makes this robot so special, here are just a few of the highlights:

- Over 4000 lines of code make up this robot, while the average EA has just 409 lines!
- BulletProof is the FIRST commercially available FX robot to be coded for Strategy Trader, the latest trading platform from FXCM! That's right- an industry FIRST!
- Did I mention the live support and video tutorials?! And the super low price??

Oh, and don't forget to check the bottom of the page to see if you are one of the 10 lucky winners of a FREE copy of BulletProof!

I hope this finds you well and having a great week! I'm contacting you today to give you a heads up about a new EA that just recently came across my desk, called Forex BulletProof. As you probably know, I get a ton of these offers emailed to me every week and I ignore most of them; but this one caught my eye for a few reasons.

First, the product doesn't make any outlandish promises like so many of the other robots out there. The philosophy behind this robot is 'slow and steady wins the race' and the creators put the safety and security of your money above all else. No, you probably won't double your deposit over night, but it's also highly unlikely that you will ever lose your deposit with BulletProof. The product claims to average a 5% monthly gain, which is very realistic. No hype here- I like that.

Second, this is the first commercially available EA that works on the new Strategy Trader platform, which was recently unveiled in Las Vegas by the brokerage, FXCM. I'm always a big fan of new technology, so I thought this was pretty cool!

And finally, the developers are offering live chat support for BulletProof, which is really unusual for a product in this price range. If you have any questions or problems downloading the robot, you can chat with a real person which is always nice! Oh, and that's the other thing- Forex BulletProof is only \$147.00, which I think is a real steal for a product of this quality....if nothing else, you've gotta see the cool comic book style videos they created to tell the story of how Forex BulletProof came to life!
