But once you have done it, you can do it over and over again.

Which is the best market or what is the best business that can make millionaires? Forex market is the best market that has and will make many millionaires and forex trading is the best business. Just imagine, it was 1977, Bruce Kovner was a NYC Taxi Cab Driver who had no money.

He was fed up with driving the taxi all day. So, he borrowed \$3,000 on his credit card and started trading forex and futures. Imagine, how much he ended up making in one decade! Yes, \$11 billion. Can you imagine a person starting with only \$3,000 and ended up making \$11 billion. Let's take another example!

Robert Laccino was a Chicago Truck Driver who was fed up with driving truck all day. He decided once for all to quit truck driving and learn forex trading. Today, he is considered to be an authority on forex trading and regularly appears on CNBC, FOX Business, Bloomberg, CNN Money and a host of other financial media channels.

Whatever, you too can learn forex trading and make a million dollars in just under 12 months. Let's do the math! Let's say we start with \$10,000 in our trading account and every month we make 20% return on our trading capital. Let's start by making 20% ROI each month;

\$12,000

\$14,400

\$17,280

\$20,736

\$24,883

\$29,859

\$35,830

\$42,996

\$51,595

\$61,914

\$74,296

\$89,155

Not bad but we couldn't make our one million dollars. This time, let's start by making at least 50% ROI each month. Let's do the math;

\$15,000

\$22,500

\$33,750

\$50,625

\$75,937

\$113,905

\$170,857

\$256,285

\$384,427

\$576,640

\$864,960

\$1,297,440

Not bad. So we did it with an ROI of at least 50%. But the important question is how to achieve this ROI of 50% each month. Easier said than done.
