Download the [Oracle Trader](#) Software FREE. Dustin Pass: If we don't see you on the webinars today, we'll see you perhaps in a few months - I am not sure when we will be opening registrations again. Before we shut down OracleTrader registration for good, we are holding two final 'last chance' webinars on August 19th. If you want to make GREAT money trading FOREX THIS YEAR, your attendance at this 'last-chance' webinar is a must.

The OracleTrader launch is coming to a close in within a day or two, but we got so many emails from traders who couldn't attend the webinars last Wednesday and Thursday, that we decided to hold two final webinars this Thursday. Real trading results is what you'll see on the webinar and you'll have an opportunity to start achieving the same stellar results! Everyone has doubts, and that's why you'll appreciate the fact-filled information that is extremely educational, straight-forward, and useful! Here's a thumbnail sketch of what you can expect on the webinar:

- Learn How It's Possible to Trade in the Right Direction 99.9% of the Time!
- See Month by Month Live Trade Examples Where the Software Accurately Predicts Market Movement
- Learn the Two Phases of Market Prediction and the Requirements for Safe Entry
- See Dustin's Method for Knowing in Advance When to Trade and When to Stay Out of the Market
- Learn all of the Advanced Features that Make OracleTrader nearly "foolproof"
- You'll Hear from Traders in Their Own Words How News Trading has Made a Real and Significant Impact on Their Lives.

Don't you want this success, too? Nothing is being held back..

- Find out why some people call it the "Day Job Killer"
- Get Dustin's Accurate Trade Notification Emails When You Register!

And not just a pip 'here and there', I mean DOZENS, if not HUNDREDS of EXTRA PIPS each month, which adds up to BIG BUCKS in your accounts! This news trading strategy is hands down, in my experience, the most BANKABLE trading method ever created, and it can CHANGE YOUR LIFE. Your seat is FREE but you only have hours left to lock it in. I promise this will be the best FOREX webinar you've ever attended. We have loaded about a dozen videos sent in by OracleTrader users. We want you to watch them and vote for your favorite. When you do, you will get a credit for \$200 off OracleTrader! That's easy money!

And it's no wonder, with all of the great money-making news releases of the last few weeks! Don't delay, you really should watch it now. Lock your door, take the phone off the hook, and clear your plate for a couple of hours because the information in this webinar will make you a lot of money.

Remember: There are some MAJOR trades coming up very soon, and if you don't register now, you'll be locked out for a long time to come. Over the last few weeks I have sent you several "I told you so" emails, and more are on the way. Don't regret missing the next major (but very easy and lucrative) trade - just register so you get to profit from it. It's a very satisfying feeling to make money in seconds trading the news, and it WILL HAPPEN if you take part. Don't blow it by being overly skeptical. There's a ton of proof to put you at ease, as you'll see in the webinar.
