Just to be clear, this package is all inclusive. There are NO OTHER CHARGES for an entire year! The winners are... I am excited to inform you of our winners. Was it you? Before I reveal who won our video contest and the Free OracleTrader Package winner from the "Last Chance" webinar, here's a super-quick heads up:

Last Thursday I closed down registration for OracleTrader because we easily hit our max number of new registrations, BUT..we had some duplicate orders and some credit card declines (which really isn't unusual in a big product launch) - so we may have a few spots opening up...If this happens, you will be notified tomorrow. If you get an email announcing slots, be prepared to act fast because they will probably be filled within an hour or two! Consider this a friendly "heads-up" note... so be on the lookout! OK, now... here are the winners!...

The winner of the full OracleTrader package from the 'last chance' webinars is (drumroll, please)... Nancy Billingslea!

Congratulations Nancy!

And last but not least, the winner of the OracleTrader testimonial video contest by an overwhelming margin was...

Bob Short's video! (Video #4)! Congratulations, Bob - you get an entire year of OracleTrader access FREE! Thank you for everyone who participated in the webinars, the video contest, and especially those of you who took action to register for OracleTrader! If you couldn't register before it closed, keep your eyes open in case we do release some spots, as mentioned above!
